Description

Mircom's BB-1000WP Series Weatherproof Annunciator Enclosures come complete with a backbox and door constructed of 18 AWG Cold Rolled Steel. The enclosure door comes with a thick lexan window, two keys and a durable lock. The door comes hinged on the bottom of the box. The enclosure is capable of handling remote annunciators for the FA-1000 and FX-2000 Series Fire Alarm control panels. The BB-1000WP enclosures are available in either a beige or red finish and have the option of mounting the TH-101 Thermal Heater Kit.

The BB-1000WP series are available in different capacities to house either 1 or 2 modules.
